Katie Adams

{{ Software Engineer }}

<work-experience>

/* Greggs – Senior Platform Developer */
- Recently started performing as lead in lieu of our manager.
- Collaborated with development teams to identify pain points and areas of improvement.
- Learned BASH scripting for better understanding and management of Azure Pipelines.
- Began creation of an Internal Developer Portal.
- Became organiser of our annual Doing Good Hackathon.

/* Greggs – Lead Developer */
- Led development of the Careers, Corporate, and Foundation websites.
- Started creation of the Greggs Tech Blog in my personal development time.
- Started Lightning Talks event, encouraging cross-department collaboration.

/* Greggs – Junior Developer */
- Helped develop the new Greggs.co.uk website, taking ownership of the new CMS.
- Developed the new Gifting journey.
- Helped develop the Festive Bake Map.

/* St Mary's Calne – IT Technician */
- Resolved technical problems, managed upkeep and repair of school hardware, and helped to setup and run events in the school chapel.
